

Process, search and analyse unstructured and high-volume data with unmatched speed and precision

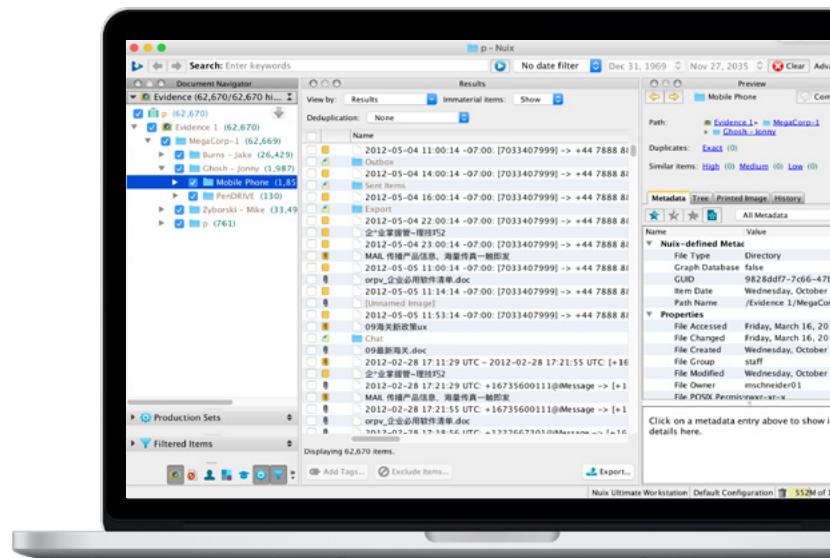

**Understanding data is not getting easier.** Growing numbers of evidence sources, file formats, devices, cloud services and storage techniques make the task ever more complicated.

Nuix Workstation is the world's leading technology for extracting intelligence from high-volume unstructured, semi-structured and structured data. It provides unmatched speed, scale and accuracy to processing, searching, indexing and analysing the information you need.

### THE NUIX ADVANTAGE

- **Get the big picture, fast.** Quickly and comprehensively answer the fundamental questions of any matter and make early case assessments with all the facts at your fingertips.
- **Mitigate risks.** Nuix Workstation delivers a consistent, repeatable and forensically defensible process across each item and data source.
- **Empower your experts.** We provide insights like no other technology, revealing and contextualising the stories hidden in data.
- **Capture everything.** Nuix Workstation's efficient and scalable processing turns more than 1,000 file formats and source types into meaningful information, capturing the content, metadata and context of each item.
- **Use one tool for multiple use cases.** Our customers use Nuix Workstation for litigation, forensic investigations, information governance, government oversight, mergers and divestitures, compliance, data and email migrations and regulatory enforcement and response.

*Nuix Workstation gives you a single window into all your evidence sources by harnessing the patented Nuix Engine.*

## USE CASES

### INVESTIGATIONS

Nuix Workstation helps law enforcement, government and corporate investigators extract, correlate, and contextualise data so you can make fast, accurate decisions. We help you filter out meaningless data and find the key facts.

### LITIGATION

Nuix Workstation delivers consistent, repeatable and defensible eDiscovery workflows that scale from a single workstation to a global enterprise. You can shorten the time to early case assessment, minimise review and production volumes and uncover connections that strengthen the case.

### INFORMATION GOVERNANCE

Nuix Workstation provides information transparency into enterprise content so you can mitigate risk, respond to regulations, tackle audit and compliance needs and manage information from creation to disposition or remediation.

### DISCOVERY AND INFORMATION MANAGEMENT SERVICES

Service providers and advisory firms use Nuix Workstation for client projects that need fast, accurate processing of vast, complex data sources. You can leverage the same software for value-add projects that enable your clients to reduce costs, mitigate risks, improve governance and make better business decisions.

## FEATURES

### GAIN ONE WINDOW INTO ALL THE EVIDENCE

Collect all available data into a single location, use advanced investigative techniques to understand the content and context, and then act on the intelligence you've extracted.

### SCALE TO THE LARGEST DATA VOLUMES

No matter how little or how much data you have, Nuix lets you start searching and managing it before other tools finish processing.

### AUTOMATE CONNECTIONS

Nuix Workstation automatically identifies and correlates key intelligence items such as company names, sums of money, email addresses, IP addresses and national identity, phone and credit card numbers. The Data Finder extension gives you more than 180 additional identifiers and the ability to create your own.

### FOSTER FLEXIBLE WORKFLOWS

The software is as flexible as you need it, with deployment options, customisation scripts, and specialised workflows that maximise productivity and save time.

### INCLUDE ALL POSSIBLE INFORMATION

Nuix Workstation processes 10 dimensions of data, including human-generated, multimedia, log files, user data, network, cloud, structured, real-time, communication patterns, and mobile.

Save time, increase productivity  
and streamline workflows.
